

## AR18D3P15C808G

## A-Ray C800 8GB DDR3 1866 U-DIMM

### DESCRIPTION

This document describes DDR3 240 Pin Non-ECC Unbuffered DIMM, P/N: AR18D3P15C808G. This Memory Module based on Capacity 8GB, Frequency 1866 Mhz, Latency CL13, Data Transfer Bandwidth 14,928MB/s. DDR3 240 Pin Non-ECC Unbuffered DIMM uses gold contact fingers and used for:

- Desktop.
- All in One Computer.
- Industrial Computer.
- Commercial computers.

The electrical and mechanical specifications are as follows:

### Feature

- Increased Fundamental Frequency, Faster Speeds.
- Unleashed Capacity, Stronger, Multitasking.
- Improved Structural Composition, Greater Efficiency.
- Reduced Working Voltage. Better Energy Efficiency.
- RoHS Compliant and Halogen-Free.

### SPECIFICATIONS

|                         |                                      |
|-------------------------|--------------------------------------|
| Module type             | DDR3 240 Pin Non-ECC Unbuffered DIMM |
| Product Dimensions      | 133.35*18.75*3.37 mm                 |
| Series                  | C800 Series                          |
| Frequency               | 1866 Mhz                             |
| Latency                 | CL13                                 |
| Data Transfer Bandwidth | PC3 14900 14,928MB/s                 |
| Capacity                | 8GB                                  |
| Voltage                 | 1.5V                                 |
| Operating Temperature   | 0° C to +70° C                       |
| Storage Temperature     | -40° C to +85° C                     |
| Warranty                | Lifetime warranty – 36 months        |
| Quality Certification   | CE, FCC, ROHs                        |
